Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 December 2001.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 7-10, 12, 14 and 23 is/are pending in the application.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/31/2002 has been entered. Applicant's previous amendment of claims 7 and 10 and cancelling claims 24-27, Paper No. 25, 5/4/2001, has also been entered.

Claims 7-10, 12, 14, and 23 are still at issue and are present for examination.

Applicant's arguments filed on 12/31/2001, paper No. 30, have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-10, 12, 14 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuyama et al. (U.S. Patent No.: 5,559,030) in view of Peoples et al. (U.S. Patent No.: 5,229,279) or Summerville et al. (WO 93/02187).

The original rejection is stated in the previous office action, Paper No. 12, 3/15/2000, and responses to applicants previous traversals can be found in Paper No. 18, 11/07/2000, Paper No. 22, 3/28/2001, and Paper No. 27, 5/23/2001.

Applicants continue to traverse this rejection on the basis that there is no motivation whatsoever to combine an acetoacetyl CoA reductase (as described by Peoples or Summerville) with a method of asymmetrically reducing a 4-halo-acetoacetic acid ester (as described in Matsuyama).

As stated in the previous office action, the motivation in using the acetoacetyl-CoA reductases of Peoples et al. or Summerville et al. is that the nucleic acids encoding these enzyme have been cloned and therefore this allows for more control in the reaction conditions and the opportunity to improve the enzyme by the use of recombinant technologies and mutagenesis. Further the motivation for the combination of the Peoples et al. or Summerville et al. references with the Matsuyama et al. reference is that each of the references involves the reduction of acetoacetic acid or its derivative to hydroxybutyrate or its derivative using acetoacetyl CoA reductase. It is acknowledged that Matsuyama et al. does not teach the enzyme responsible for such a conversion. However, one of ordinary skill in the art, given the teachings of Peoples et al. or Summerville et al., who teach a similar conversion, would expect that the same

enzyme would be responsible for such a conversion irregardless of the presence of an extraneous halogen group.

Therefore, claims 7-10, 12, 14 and 23 are made obvious by Matsuyama et al. and Peoples et al. or Summerville et al.

Conclusion

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
